## WELCOMING ADDRESS

DEAR COLLEAGUES, DEAR FRIENDS,

It is now a great honor and privilege to welcome you all to the 13<sup>th</sup> EANO meeting, here in Stockholm, Sweden. from 10 - 14 October, 2018. We are looking forward to an educational and inspirational meeting with the ultimate goals of improving the life of patients stricken by a brain tumour.

Stockholm with Karolinska Institute, as one of several universities in Sweden, and the Nobel Prize is dedicated to excellent basic, translational and clinical cancer research. Stockholm is an attractive capital that offers something for everyone: culture, nature, indulgence and an excellent infrastructure. Furthermore, the great transportation network in Sweden and to the whole Nordic area gives the possibilities to taste an interesting and beautiful part of Europe.

The whole EANO programme from beginning to end, has a lot to offer attendees from various backgrounds. Whether you as an individual are a clinician, a scientist, a nurse, from other professions or a patient advocacy group, and whether you are new to brain tumours or very experienced, you will find presentations that increase your knowledge. Most valuable, the speakers are from many countries and institutions with a plethora of experiences which fruitfully will contribute to make the EANO 2018 a successful meeting.

We really hope that this meeting will be something to inspire the future collaboration and research in the field of neuro-oncology, and that we all acknowledge the need of both top research and of diversity even in the field of science.

We wish you a pleasant time.

*Welcome to Stockholm and the EANO meeting 2018!*

*All the Best,*

Roger Henriksson  
President EANO 2018 Meeting

## ACCREDITATION & FUTURE MEETINGS

### CME CREDITS

The **13<sup>th</sup> Meeting of the European Association of Neuro-Oncology, Stockholm, Sweden, October 10 - 14, 2018** has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **25** European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of *AMA PRA Category 1 Credits™*. Information on the process to convert EACCME® credit to AMA credit can be found at [www.ama-assn.org/education/earn-credit-participation-international-activities](http://www.ama-assn.org/education/earn-credit-participation-international-activities).

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation\* at the event once he/she has completed the post-congress evaluation form. (Cf. criteria 9 and 23 of UEMS 2016.20)

The EACCME® credit system is based on 1 ECMEC® for one hour of CME with a maximum of 8 ECMEC®s per day.

\*Please get your badge scanned every day at the registration desk. The Certificate of Attendance will indicate the number of CME credits that correspond with your badge scans.

# ORAL PRESENTATIONS

## PUBLICATION OF ABSTRACTS

Please note that your work will be published online on the website of the journal “Neuro-Oncology” and on the EANO website.

## INFORMATION FOR ORAL PRESENTERS

The [preview centre](#) is located in the **Room 27**.

## SPEAKING TIME

---

The chairpersons of your session will be strict in allowing no more than the time allotted to your paper. Remember to allow some time for the changeover of speakers and chairperson's introduction, and for questions and discussion.

Please **rehearse your talk** to make sure it will fit comfortably into the available time.

Please note that, as a rule, presenters can show a (final) slide with all **acknowledgements**, however, in view of the short time available, **names cannot be read to the audience**.

Please see the detailed programme for any time changes.

## COMMERCIAL DISCLOSURE INFORMATION

---

Due to EACCME regulations, **authors are requested to disclose possible conflicts of interest on the first slide**.

A **conflict of interest** is any situation in which a speaker or immediate family members have interests, and those may cause a conflict with the current presentation. Conflicts of interest do not preclude the delivery of the talk, but should be explicitly declared. These may include financial interests (eg. owning stocks of a related company, having received honoraria, consultancy fees), research interests (research support by grants or otherwise), organisational interests and gifts.

If you have nothing to disclose, please state “*I have no commercial disclosure*”.

## AWARDS FOR BEST ORAL PRESENTATIONS

---

The EANO proposes awards for the best oral presentations at the meeting.

- The Vienna Medical Academy Award for the best oral presentation for clinical aspects.
- The EANO Presentation Award for the best oral presentation for preclinical aspects.
- The EANO Presentation Award for the best oral presentation in nursing perspective.

All three winners will receive a money price of EUR 500,-. The EANO Scientific Committee has selected a number of candidates for the Oral Presentation Awards based on the their submission after peer review.

# ORAL PRESENTATIONS

## PROJECTION AND TECHNICAL SETTING

---

PowerPoint is the only communication tool available in all session halls.

The preview centre is located in the **Room 27**.

1. Speakers are kindly asked to observe that only computers provided by the congress may be used for showing your presentations. **All PowerPoint presentations must be handed in at the preview centre.**
2. All presentations are loaded into a PowerPoint handling system that will store and distribute your presentation to the session hall in time for your session.
3. All PowerPoint presentations should be handed in **at least 2 hours before the session starts**.  
The opening hours of the preview room are as follows:

Wednesday, October 10:	15:00 – 19:30 hrs
Thursday, October 11:	08:00 – 17:30 hrs
Friday, October 12:	07:30 – 18:15 hrs
Saturday, October 13:	07:30 – 18:30 hrs
Sunday, October 14:	08:15 – 12:45 hrs
4. Please check your presentation carefully on the preview room computer assigned by the staff before the final sign off.
5. The professional staff of the preview centre will load your presentation into the system so that it will be available on the computer in your session hall when you come to speak.
6. If you are doing more than one speech during the congress, you may upload all your presentations at the same time and they will be sent to their corresponding session halls at the time of your sessions.
7. The PowerPoint handling and distribution system is optimized for **MS PowerPoint (last version) and “\*.pdf” (Adobe Acrobat)-files**. The uploading of „DVD-Movies“ is not supported.
8. The supported data media are: **CD, DVD (as Data-storage-medium) and USB-Memory Key**.  
You may want to carry a second key/CD as a back-up in case there is any insoluble technical problem.  
**All needed files** (including the movie files!) - have to be saved on the data media.  
Presentations can also be taken off speakers notebooks at the Preview centre.
9. The fonts that are used in the presentations should be “Latin-based fonts“. If the speaker needs special fonts, they should be stored as “embedded fonts“ with the presentation (File -> save as “name of presentation“ and under “tools“ -> save options mark the checkbox “embed True type fonts“ and select “embed all characters“).
10. When using mathematical symbols please use these which are available under Latin fonts (unicode or DOS: Western Europe). These can be shown without any problems in Office 2007.
11. As format for embedded movies “MPEG2 - movies“ are preferred (but can also be \*.avi, \*.wmv ).  
If Codecs are used, the Code package Divx in the current version, which can be found under [www.divx.com](http://www.divx.com), should be chosen.
12. Presentations should be saved as “\*.ppt“, “\*.pptx” ( = PowerPoint) or “\*.pps“, \*.ppsx“ (=PowerPoint Slideshow) - file and movies as separate files on the data media.
13. The computers and projectors will be set up and optimised for **1920 x 1080 resolution (ratio 16 : 9)**.

These guidelines should be seen as a matter of improving the effectiveness of the preview system and in consequence also the speakers comfort.

### SAFETY – CRIME

Stockholm remains a relatively safe, secure city. However, use of common sense is (always) required, as in any large city. Experience has shown that some basic precautionary measures should always be kept in mind in any city:

- Do not carry important items like flight tickets, passports etc. with you when visiting the conference or strolling through the city, leave them in the hotel safe during your stay. Rather carry a copy of your passport or an identity card with you.
- Try not to carry all documents, money, credit cards and other essential items and valuables in one bag or purse. If it is lost or stolen, everything will be gone and might be difficult to replace on short notice, especially passports and visa to return to your country of residence.
- Take off your name badge when leaving the conference centre.
- In heavily frequented tourist zones and the metro at rush hour, be aware of attempts of scam and pickpocketing.
- Do not respond to anybody unknown to you who comes up to you on the street engaging you in a conversation, no matter how safe they appear to be.
